

The Fortnightly REVIEW *of*

THE CHICAGO DENTAL SOCIETY

November 1, 1952

Volume 24 • Number 9

Armed Forces Snafu Regarding Dentists

The confusion regarding the dental manpower requirements of the Department of Defense continues. Lack of continuity on the part of the various branches of the Armed forces has befuddled the dental profession with the many ifs, ands, and buts that somehow refuse to add up to anything concrete. The recent symposium at the St. Louis Meeting of ranking service officers failed to clarify the situation and the American Dental Association has registered its protest on the grounds that since the Armed Forces have had ten years of experience in manpower mobilization, it is not asking too much to have a workable pattern for dentist mobilization now.

From the little available information regarding this serious condition, we have compiled the following table. It must be stressed that this is only an approximation and is not to be construed as official.

	Bal. 1952	1953	1954	1955	Total
ARMY	500	800	700	700	2700
NAVY	250	575	850	640	2315
AIR FORCE	375	655	792	792	2614
	1125	2030	2342	2132	7629

The Army requirements are the most confused of all, depending on the extension of the draft, Public Law 779, beyond July, 1953. The ratio of dentists will continue to be two dentists to 1000 personnel.

The Navy will be able to meet part of its figure through its own Priority II reserves and volunteers, but will have to draw about 1,500 dentists from other sources.

The Air Force is trying to maintain an "even flow" of new dentists and wishes to reassure the older men that the younger Priority III's will be called first.

The Surgeon General of the Army, Maj. Gen. George E. Armstrong, said that all available Priority I and II dentists will be in service by the end of the year. He also said that "In 1953, dentists under 51 who have had no military service since 1940, will be liable to the draft."

ABSTRACTS

LIVE FOR TODAY

The author reminds the profession that his prescription of "Living for Today" is a form of "heart insurance." As dentists, we are constantly under strain and tension. Our lives are one deadline after another in the form of appointments, work production, ambition and achievement. We race our hearts unfairly.

We do so by mental apprehension, worry, and emotional intemperance, as well as by physical and physiological intemperance.

Fears and quarrels, no matter their reasons, also strain our heart.

The author suggests we stop "to pick a few posies along the road of life and presents seven ideas to help us last.

1. Mix a few pleasant surprises with your professional work each day.
2. Use a stool at the chair and prop up your feet in between patients.
3. Prop your feet up at home; use a hassock.
4. Stop smoking and take off your excess weight.
5. Take your family to an unexpected show or entertainment.
6. Play the batting averages and shrug if you do your best and don't "get a bet."
7. Team up with God Almighty and let him take over the night shift while you sleep soundly.—By *G. W. Crane, Ph.D., M.D. Cal Magazine, Sept., 1952.*
J.N.L.

TEMPOROMANDIBULAR DISTURBANCES

The author presents a case in which the patient suffered from severe clicking of the temporomandibular joints accompanied by pain radiating to his left ear during and after mastication. The case

was treated by repositioning the mandible including an extension of the interdental space.

The occlusal surfaces maintain the correct postural relations of the jaws and guide all movements of the mandible. The condyles do not guide the movements of the mandible. Since mandibular movement is controlled in the motor area of the brain, the patient can voluntarily control the position of the mandible until the musculature adapts itself.

In cases of trauma a correctly functioning dental apparatus can be established by proper adjustment of the interdental space and by balancing the occlusion. When this is done, better esthetic restorations can be made.—"*CORRECTION OF TEMPOROMANDIBULAR DISTURBANCES BY JAW REPOSITIONING*" by *L. J. Hoffman, U. S. Armed Forces Med. Journal, September, 1952.*
J.N.L.

ACRYLIC RESTORATIONS

Methyl methacrylate resin, when understood, when handled properly and used discreetly, is an excellent restorative material.

Methyl methacrylate is an ester, being the resultant product of a reaction between an alcohol and methacrylic acid. It has an ability to flow in the form of the monomer of twice that of water.

The methacrylates at 25° C. absorb 0.45% of their weight of water in 24 hours. However, tests on samples of sizes approximating operative restorations fail to show any measurable weight or dimensional gain.

The non-pressure method of restoring a tooth is based on a principle of repeated replacement of the volumetric loss.

Essay in the Upper Tower
Clinics in the Lower Tower
The Conrad Hilton Hotel

Our essayist is DR. A. H. DREDGE, Assistant Professor
of Denture Prosthesis, University of
Detroit, School of Dentistry

Dr. Dredge is a member of the Pierre Fauchard Academy, Omicron Kappa Upsilon, a life member of the Detroit District Dental Society, a life member of the Detroit Clinic Club and a licensed specialist in denture prosthesis. He is the author of the "Complete Denture Laboratory Manual."

His title is: "COMPLETE DENTURE PROBLEMS
AND HOW TO MEET THEM"

Dr. Dredge says, "This presentation is not a cut-and-dried essay, just a friendly chat with the boys concerning their denture troubles. I'll try to point out their errors, both of commission and omission and claim that any general practitioner may have a successful denture practice with few if any patient debates. The simple key to these results is a simple, practical system of construction followed in detail."

Our table clinicians in the Lower Tower after the essay will be from the Chicago Dental Society's own ranks.

All this, and more too, at the

REGULAR MONTHLY MEETING
Chicago Dental Society for November, 1952
George W. Hax, Chairman

Sloppy Copy from Oppy

SO YOU'RE I-A, TOO!

Last July, our mailman, whom I'm beginning to dislike, brought some so-called "*bad news*"—an increase in rent. . . . Mind you, I have been living in my present apartment a couple of years, and the first time I meet my mailman, he has a solicitous "sorry for you" attitude. OH! It wasn't too bad—just a small increase in rent which the landlord more than ever deserves.

But the next time I ran across my mailman was in September after Labor Day. Pleasantly (as if I carried no grudge) I asked, "Any mail today?" He replied, "Yes, there is Bad News today," in his best Kaltenborn voice, which is not a good imitation or funny either. He looked at my gray hair (maybe my 46 around the waist figure) and with a quizzical look, handed me my mail. A two cent postal card:

SPECIAL REGISTRATION NO. I
SELECTIVE SERVICE NO. 11-104-02-12 is a winner. You have been classified I-A until???

It is comforting to know that someone in this world realizes that I am young stuff. Although I do meet with great opposition, I think I can do everything now that I did at 18. Oh! Oh! Once in awhile, I tell Mrs. Opdahl what a gray-haired old man I am and that way I get out of housework. Sometimes it works . . . I believe a man who gives in when he is wrong is right . . . A man that gives in when he's right is married. Then about a week later . . . Not so pleasant this time . . . "Any mail today?" "Yes, there is more bad news." Thinking to myself. "Why doesn't this guy change routes, go in business for himself, or else break a leg." . . . Another increase in rents . . . Still not bad . . . Just have to raise the prices of amalgams or put in an expense sheet to the Fortnightly—Ha! Ha! Ha! . . . Have to laugh at that one myself . . . That Sullivan is so tight the moths die in his pocketbook.

Then about the last part of September, he handed me "THE LAST BAD NEWS." . . . SELECTIVE SERVICE SYSTEM ORDER TO REPORT FOR ARMED FORCES PHYSICAL EXAM—11-104-02-12 (LUCKY NO.) AT 9:30 A.M. THE 20TH DAY OF OCTOBER 1952."

Out our way, one of the dentists, who is a LION and up for a physical, received many, many reports wishing him the best of health for his physical. . . . Out west, one of the dentist's resurrected a seven-year-old x-ray of his gall bladder showing it was bad. . . . Another dentist showed by x-rays how bad his arthritis is. But I saw him playing golf recently. . . . Yes, what was once a fine healthy group of dentists is now suffering from everything from ingrown toenails to a loving wife and family. . . . A wife is a woman who sticks to her husband through all the trouble he wouldn't have had if she hadn't married him. . . . About the landlord. . . . God Bless Him. . . I will gladly pay the increase.

Is this I-A or Army business "Bad News"??? . . . First time in my life I will collect on the taxes I have been paying for years. . . . First time in my life I will work eight hours a day. . . . Just think, throw down the cement spatula when the whistle blows. . . . And who knows, maybe I'll like the Army. . . . Many of us married folks should make good soldiers with the experience we have had fighting 22 years on the "battlefield." . . . Look at the lumps on my head. . . . Yes, I think many of us will be good soldiers . . . Maybe I'll be a General some day, then I can run for President. . . . No, there's no advancement in being a President. . . . For the first time in my life I am disgustingly healthy, Blood Pressure 112 over 80 . . . Gall Bladder in fine condition . . . Small heart murmur which the Army never finds, but the Navy does . . .

YOU ARE INVITED TO ATTEND
THE 21st ANNUAL CLINIC DAY
North Suburban Branch, Chicago Dental Society

Wednesday, November 12, 1952

Georgian Hotel, Evanston

Outstanding Manufacturers' Exhibits and Demonstrations from 10:00 a.m. to 4:30 p.m.

TIP TOP ROOM

PROGRAM

Limited Attendance Clinics

10:30 a.m. to 12 noon and 1:15 to 2:45 p.m.

By registration only

- | | |
|---|--------------------------|
| 1. "Interceptive Appliances in Pedodontia" by Dr. Thomas K. Barber | 10:30 a.m. and 1:15 p.m. |
| 2. A Table Clinic and a General Discussion on Roentgenology by Dr. S. F. Bradel | 1:15 p.m. |
| 3. Practical Application and General Discussion of Hydrocolloid in Operative Dentistry by Dr. Morris J. Thompson, Beverly Hills, Calif. | 10:00 a.m. |

Visual Education Program

An all day program of the latest movies covering subjects of Periodontal, Exodontia, Partial Denture, Infiltration Anesthesia, Complete Dentures, and Children's Dentistry—All produced in the last year or two.

PUBLIC HEALTH LUNCHEON

12 noon

By invitation only

Speaker: Dr. Gordon Rovelstad, Northwestern University Dental School

TABLE CLINICS

2:00 to 4:30—West Side of Main Lobby

1. "Partial Denture Design for the General Practitioner" by Commander W. A. Weaver (DC) USN
2. "Indirect Impressions in Crown and Bridge" by Commander W. C. Wohlfarth (DC) USN
3. "Manipulation of Amalgam" by Commander G. W. Ferguson (DC) USN, Lieutenant (JG) D. E. Schulze (DC) USNR, Lieutenant (JG) E. W. Schoeberl (DC) USNR
4. "Periodontia Treatment Procedures" by Lieutenant (JG) D. M. Ball (DC) USNR
5. "Anatomy Pertinent to Mandibular Fractures" by Lieutenant Commander E. R. Hildebreth (DC) USN
6. "A New Method of Mixing Silicate Cement" by Captain A. H. Grunewald (DC) USN

AFTERNOON LECTURE PROGRAM

3:00 to 5:00 p.m.—Oxford Room

"Dentistry Through the Electronic Microscope" by Dr. James J. Kennedy, Northwestern University

SOCIAL HOUR

5:00 p.m.—French Room

DINNER

6:30 p.m.—Tip Top Room

Speaker: "So Goes the World Today"—Mr. Robert F. Hurlleigh, Chief of WGN News Staff
Wives, Assistants and Guests are invited

APPLICATION FOR RESERVATIONS (\$2.00 each)

NEWS AND ANNOUNCEMENTS

U. OF I. HOMECOMING

The annual Homecoming and Clinic Day for alumni of the University of Illinois College of Dentistry will be held on Wednesday, December 3.

An all-day program is being arranged, according to Dr. William R. Gubbins, president of the University of Illinois Dental Alumni Association. It will feature clinics, a scientific program, fellowship, a social hour, the annual business meeting, and luncheon and dinner.

Advance reservations may be made by contacting Dr. Gubbins, 4010 W. Madison St., Chicago; telephone, VAn Buren 6-1030.

CDAА NOVEMBER MEETING

The regular meeting of the Chicago Dental Assistants Association will be held Thursday, November 13, in the Conference Room of the Pittsfield Building, 55 E. Washington St., at 8:00 p.m. Note that the meeting night will be the 2nd Thursday instead of the 3rd Thursday. Dr. Earl Zatz will be the speaker; his subject, "Care of the Feet."—*Harriet Turner, Publicity Chm.*

ONE-THIRD OF DENTIFRICE SALES ARE NOW CHLOROPHYLL PRODUCTS

Chlorophyll dentifrices, which entered the national market in February, now account for one-third of the total dentifrice sales, according to a study report in *Tide* magazine. At the same time, the article revealed, the dentifrice market has expanded from a total sales figure of \$6,215,000 in July, 1951, to a total of \$7,855,000 in July, 1952, an increase of 20 per cent.

RUSSELL HEGLAND

Russ Hegland has become Executive Secretary of the Montana State Dental Society in addition to being Executive Secretary of the Montana State Medical Society. This is one of those happy concatenations of circumstances (sometimes referred to as a "natural") which work out to the best advantage of everyone concerned. Russ will cover the state in his dual role and his capable and efficient management will benefit dentists and medics alike. He is very happy with the new deal and all of his old friends here are looking forward to having him with us again at dental meetings. Bon voyage!

ENGLEWOOD NOVEMBER MEETING

The November meeting of the Englewood Branch will be held on the 11th at Nielsen's Restaurant and will include an Armistice Day program with Mr. Joseph Cooke giving a short address on "Americanism."

The topic for the regular meeting will be "Current Financial Investment Problems" by Mr. James Pratt who is a member of the firm of F. S. Moseley Investment Securities. A question and answer period will follow.

MEDICINE AND POLITICS

We sincerely hope that every physician, dentist and pharmacist in Cook County is a registered voter. The votes of the public will go far to determine the future of medicine on November 4. By electing to office those legislators who can be depended upon to fight for medicine's viewpoint we will have performed the most important and essential action possible to safeguard medicine's

future. We urge you to identify the candidates listed below who represent your political districts, to work for them, and to vote for them. Reports from reliable political sources indicate that the race will be very close in some districts. Medicine's vote will carry the day for our candidates in these areas. We trust that no one will fail to exercise his civic duty, now (including a financial contribution to the Committee) and by voting for our endorsed candidates.

Endorsed candidates:

HOUSE OF REPRESENTATIVES U. S. CONGRESS

District

- 1 No endorsement
- 2 Richard B. Vail—(R)
- 3 Fred E. Busbey—(R)
- 4 William E. McVey—(R)
- 5 John C. Kluczynski—(D)

Cook County,
25 East Washington Street.

ACADEMY OF GENERAL DENTISTRY

The Academy of General Dentistry is a recently formed organization with the following main purposes and objectives:

1. To stimulate interest in postgraduate study by the dentists in general practice.
2. To encourage better attendance at the various dental society meetings, especially branch meetings.
3. To help provide for and arrange postgraduate courses for the general practitioner, in cooperation with dental schools and societies.
4. To strive to maintain high standards in dentistry by the men in general practice.

One of the methods by which the Academy hopes to succeed in its mission is to grant certificates of membership to those applicants who may be eligible by virtue of having completed the required amount of postgraduate courses and attended the necessary number of local, state, national and other scientific meetings.

The Academy of General Practice wishes to receive inquiries from ADA members in general practice who are of high moral and professional character so that more detailed information may be made available to them. Address a card or letter to the Secretary—*Dr. A. L. KNAB, 8500 Stony Island Avenue, Chicago 17, Illinois.*

ALPHA OMEGA CLINIC DAY

The Alpha Omega Dental Fraternity of Chicago is presenting its fourth annual Clinic Day program for members of the Chicago Dental Society, on Wednesday afternoon, November 19, at the Congress Hotel. All dentists are cordially invited, *gratis*.

Dr. James H. Keith, President of the Chicago Dental Society, will deliver an address on "Fraternalism in Dentistry." He will be introduced by Dr. Samuel R.

(Continued on page 30)

NEWS OF THE BRANCHES

NORTHWEST SIDE

Our first meeting attracted many members; welcome back and keep it up. Our speakers, the honorable Timothy Sheehan and Dr. LaMar Harris held the interest of all present. They will be welcome again real soon. . . . The North Side Branch is holding an all-day clinic at the Edgewater Beach Hotel on December 3; everyone is invited. There will be a limited attendance in the morning and table clinics in the afternoon. Cocktails and dinner in the evening will close the all-day affair. . . . Our next meeting, November 11, we shall celebrate "Good Will Nite," a premiere meeting in the history of the branch. Men who have practiced 40 years or more will be honored. We are very proud to have 18 men who have attained this goal. The entire evening will be non-scientific and will have a popular and prominent speaker. Those to be honored are: Harold Brevig, L. L. Burroughs, Aaron Chulock, Guy T. Coleman, Winifred Conley, Walter Droberg, Ed G. Faller, David A. Frankel, Elberg Johnsen, Orlando Jones, John L. Joyce, Fred Liermann, Ed R. Pihlfeldt, Leo J. Shoor, G. E. Ulvestad, Chas. Wertzler, and Henry Wieland. You will be given the opportunity to see many old friends and make new ones. . . . Oh, I must not forget to mention that Don Mammen and his associate O. H. Pitch were also present at the ADA meeting. Don made a special effort to remind me; my apologies, sir, please. . . . Regards from John and Mrs. Dybdahl who are now homeward bound after an escorted tour of the eastern states. . . . John P. Lavieri announced the opening of his new office in the North Central Medical Bldg. at 5646 W. North Ave. . . . Herman Wenger was seen ardently supporting his alma mater in the Northwestern-Michigan game on October 18 in Evanston.—*Sonny Lituri, Branch Correspondent.*

NORTH SIDE

Congratulations to Pres. Russ Boothe, his officers and committees, for making the October 6th North Side meeting the best in years. The dinner attendance reached 85 and double that number were present at the scientific session following the meal. Several members arose and made public testimonies of their satisfaction with the conduct of the meeting. Among our guests was Chicago Dental Society President Jim Keith, who brought us up-to-date on the Society's efforts against the illegal laboratories. President Keith also asked for unqualified support of the Interprofessional Committee. Several of the candidates endorsed by the Interprofessional Committee spoke briefly, asking for the support of organized dentistry. Our professional life as we now know it may well be easily changed by what happens at the polls this November, so each member is urged to seriously consider the recommendations of the Interprofessional Committee; and let them be known to their friends. . . . To those who missed this fine meeting of the revitalized North Side Branch, an opportunity to reap some of the benefits is offered you in the form of a Clinic Day, December 3rd. This will be an all-day affair, which will include a morning of table clinics, an afternoon of limited attendance clinics and topping off the day with a social hour and dinner. It will be held at the Edgewater Beach Hotel and, of course, the ladies are invited to join in the whole grand affair. . . . Good luck to Bob Janitschke who left his North Side location to practice in Genoa, Ill. He also is in line for a physical exam by Uncle Sam and, who knows, may have to move again. Bob knows a good thing when he sees it and is retaining his membership in the North Side Branch. . . . Congratulations to the sons of Heurlin and Nock who have entered Dental School at

Northwestern University. Mike Schuffert reports that McAuliffe is on orders to leave for service with the Navy. . . . The North Side Bowling League is being organized for Wednesday afternoon sessions, and interested bowlers are advised to contact Harry Glass. . . . As a closing reminder, mark off December 3 for the greatest of all Clinic Days, the North Sides'.—*Edward O. Benson, Branch Correspondent.*

WEST SIDE

The time has been changed, the golf clubs, fishing poles, and baseballs have been put away, and in their place we have the bowling ball, football, and our duck hunting guns, which indicate that summer is (done, gone) and fall is here, and the fall ushers in our monthly meetings. Now, fellows, don't you think you should "mark off" the 2nd and 3rd Tuesdays for the West Side Branch and the Downtown Meetings? You don't know what you have missed until you meet, chat, drink and break bread with your fellow dentist, and believe me, swopping ideas is helpful. . . . Sam Rakow and L. T. Weinshenker have been ill at home for the last four or five weeks. They are doing fairly well; if you can call, write or visit, I know they will appreciate your thoughtfulness, and these earnest supporters sure deserve our consideration. We are pulling for you, Sam and Lew, to be with us real soon. . . . Harry Weinfield spent the summer in San Francisco visiting his son who is practicing medicine there. Harry was very much impressed with California but did not care for the earthquakes. . . . Our Director, Al Sells, sure put on a splendid and outstanding party for his daughter when she was married. . . . Walter Kelly, our handsome President, and a couple of his buddies were called in by Uncle Sam to be examined as to their fitness for the Army. I sure will miss Wally as a companion to the State meetings, but perhaps Uncle will give him a few days off in the spring. . . . I agree

with my friend Frank Farrell, who wrote the Oct. 1st news column for Englewood, that news items are definitely hard to find, and in the future it may be necessary to hire a professional to report, to secure interesting past, present, and future happenings. . . . In St. Louis, at the American Dental Association Meeting, you would think we had a Chicago Dental Society Meeting, with so many of our Chicago members attending. There were Too! Too! many to mention them all. The West Side sure was well represented, in fact, our President Kelly had enough members present to hold a meeting. . . . Joe Porto did a very excellent and worthy performance as chairman at the Loyola Alumni Breakfast, which had over fifty members present. . . . Dean Baralt gave a precise and complete historical talk on the activities of the Dental School and Faculty, during his last three years as Dean. He is very well versed on dental education and is using it to good advantage at Loyola Dental School. . . . Carl Madda, in his capable and determined manner, gave Loyola Alumni an outstanding golf outing at Glendale Golf Club. My own opinion is, I don't think there was any room for improvement. The weather, the food, the prizes and the good fellowship made this affair a tremendous success. It was obvious that with the cooperation of Werner Gresens, Robert Pollock, Frank Amaturro, Nicholas Brescia and President Joe Porto, a successful golf outing could be had. Carl worked hard as chairman, and showed a handsome bank balance when the financial account was closed. . . . I cannot help but satisfy a desire that is within me, and that is to ask and stress for a little more cooperation from all members, regarding Society affairs. We have learned since the very beginning of our school days that nothing worthwhile can be accomplished without the united effort of every one concerned. Our history books keep alive the observation of Benjamin Franklin, who said at the time the *Declaration of Independence* was being signed, "We must all hang together, or we will hang separately." A new and

more modern example of the importance of close cooperation can be had by conducting a simple experiment; we know that wood will float; while it is true that wood will float, sawdust will sink to the bottom. This means that something we may try to accomplish through our *individual* efforts, will probably end in a complete loss of our time, our money or whatever else we put into it. However, if we unite into a solid group, we can then float upon the water instead of sinking to the bottom. We need your help to lick these illegal laboratories, by not sending them any of your work, by reporting all shady actions that any member of our profession is doing to help promote their success. We have a job to do. Bill Gubbins, Chairman of the Legislative and Law Enforcement Committee, is doing a fine and commendable job, and as long as we are alive and have this big job to do, we must pitch in and do it with all the strength and vigor which we possess. Fellows, it has been good reporting to you.—*Sam Kleiman, Associate Correspondent.*

KENWOOD-HYDE PARK

The October meeting has come and gone. You men who failed to put in an appearance missed a real treat. Bob Appleman gave a very splendid talk on "The Mental Preparation of the Patient for Full Upper and Lower Dentures." A goodly crowd was present and you could have heard a pin drop any time during Bob's presentation. Thanks, Robert, for a job well done. . . . The table clinics which followed were excellent and well attended. . . . I often wondered if you men who live in the Chicago area and belong to the Chicago Dental Society, realize what a wonderful opportunity you have for gaining dental knowledge. There are eight branch societies, each one holding from four to eight scientific sessions a year and the parent society meetings down town, which are usually six in number . . . On top of all that, the Midwinter Meeting of four days' duration.

Your membership entitles you to attend any of these meetings, or all of them . . . Many of these meetings, although dealing with scientific subjects present a great deal of bread-and-butter dentistry. . . . You are sure to pick up a few ideas that you can take back to your office and put into use. . . . Ideas that make for more satisfied patients. . . . Ideas that make dentistry easier for you every day at the chair. . . . Did you men ever attend one of the Component Society meetings down state? You will find men at those meetings who have traveled seventy-five to a hundred miles. . . . The Speaker? Probably from Chicago. . . . Possibly a man who has appeared before many of our Branch meetings. . . . Here is Dental Education begging you to come and get it. . . . Think it over, fellows; you are missing the chance of a lifetime.—*Harry Hartley, Branch Correspondent.*

WEST SUBURBAN

The meeting of the West Suburban branch for November will be highlighted by a presentation by Dr. Morris J. Thompson of Beverly Hills, California. His authoritative discussion on the general use of hydrocolloid impression materials in dentistry is supported by years of research and has met the test of dental groups both in this country and abroad. No library review of this subject is without reference to numerous papers and articles written by Dr. Thompson. He is truly an expert with this technique and has been recognized as one of our foremost authorities. The date is Tuesday evening, November 11. Dinner will be served at 6:30 and the presentation begins at approximately 7:45 p.m. The meeting place will be the Oak Park Club at Ontario and Oak Park Avenue. Telephone or write Joe Komarek or any of his aids for reservations. Do it now! . . . **ROUND TABLE** on Monday noon, November 3, at the Oak Park Club. Call Bob Cutlan for reservations. The clinician will be Dr. Irving Secter, Secretary of
(Continued on page 24)

A Course of Five Round Table Discussions and Symposia on "CURRENT ADVANCES IN DENTISTRY"

Sponsored by the Branch Societies of the Chicago Dental Society
**ONCE A MONTH—NOVEMBER 10, DECEMBER 8, 1952,
JANUARY 12, FEBRUARY 9, MARCH 9, 1953**

This course will be given by the University of Illinois College of Dentistry and will be transmitted by telephone to the branch societies of the Chicago Dental Society at the same time that it is transmitted to dental societies from coast to coast on a nation-wide hook-up. There will be thirty nationally known speakers on the program. The tuition fee of \$10.00 covers the entire course of the five panels, including the manual.

THE PROGRAMS—Each panel begins at 7:30 P.M.

1. Monday, November 10, 1952—"Exodontia"
2. Monday, December 9, 1952—"Dental Materials and Therapeutic Aids in Everyday Dentistry"
3. Monday, January 12, 1953—"Removable Partial Denture Prosthesis"
4. Monday, February 9, 1953—"Treatment of Periodontal Diseases"
5. Monday, March 9, 1953—"Developmental Anomalies in Dental Practice"

If you desire to become a member of this nation-wide class, please mail the application form below to the secretary of one of the following enrolled groups.

NEWS OF THE BRANCHES

(Continued from page 17)

the Chicago Academy of Hypnodontia. His essay will attempt to show the basic principles involved in using hyper-suggestibility in a dental practice. Dr. Sector has recently been invited to present his material at the University of Michigan—which attests to the popularity and ability of this speaker. See you there. . . . The lovely ladies of this area, our own dental assistants, will not be outdone. The West Suburban branch of the Chicago Dental Assistants Association will meet at the Carleton Hotel in Oak Park on November 6th. Dinner at 6:30 p.m. Now get this clever idea. Our own Harry Cornwell will present "What the Patient Thinks of the Dental Assistant." To make his remarks more real and to hit home, Harry has constructed an extensive survey to lend authority to his remarks. He has placed questionnaires in the offices of several practitioners in this area. The patients will answer about fifty questions related to the dental assistant. The questionnaire remains unsigned and no information is given relative to the office from which the information was given. On November 6th, it is anticipated that a good lively discussion will be held. Congratulations to a group of intelligent and industrious young ladies. . . . See the calendar of events in the **FORT-NIGHTLY REVIEW** for happenings elsewhere. . . . I received a pleasant note from George Besbekos who is presently

stationed at the Naval Shipyards in San Francisco. He reports that his first child, a boy, arrived on August 21. He is tentatively slated for a six-month postgraduate course at the Naval Dental School in Bethesda, Maryland. Congratulations and good luck! It's wonderful to hear from you—even better if you write again. . . . This correspondent wishes to thank all his contributors, please have all information for this column in by the 10th and the 28th of each month. Thanks also for the many nice letters received appreciating the efforts of this writer.—*Anthony J. Malone, Branch Correspondent.*

SOUTH SUBURBAN

The first meeting of the South Suburban group had an exceedingly good turnout, and altho there was no main speaker scheduled, it was a very successful get-together in that a lot of business current and otherwise was disposed of. . . . By the time you read this, there will have been a farewell party for Henry Cubbon, who has been recalled for service in the Navy. There is a real twist to this in that Cubbon is to report to San Antonio, Texas for duty where his status will be that of a Navy man on loan to the Army. . . . Among the interesting goings on, we get word that the son of Dr. Lights, who was graduated from the Drama School of Yale, is now working in the library of NBC in New York, doing all the leg work for the Dave Garroway program "Today". . . . P. J.

Teeling has been back in Harvey for a visit, and to quote son Sherman, has been working in the office off and on "just to kind of keep a hand in things." Teeling, Sr. is now back in Florida where he went originally to escape the rigors of our wintery climes. . . . "Smiley" Simon and family left for a tour of Florida on October 31 with a friend. After a stay in Pensacola, they will proceed down the West Coast of Florida across the Tamiami Trail and back home up the center of the state. Smiley hopes to get in a lot of fishing on the way. . . . Rowland, our wanderer from Blue Island, is off for South Dakota for the pheasant season. There is always the same gang of cronies that participate on these trips and Rowland says that his job is that of banker and cook. . . . On the expecting list are the Madorys and Seidels of Harvey. I wonder if that is the reason we don't see Seidel at our meetings any more? . . . Just got word that Folker's father passed away, and I am sure that all of you join me in extending our sympathies to him. . . . Our November meeting will be held as before at Chuck Cavallini's on the 4th. . . . That's all for now, see you all at the meeting.—*H. C. Gornstein, Branch Correspondent.*

that the members contribute and these have been very slim. We thought perhaps that we could come up with news on our hunters who will soon sally forth in search of wild game, but no luck. . . . James Oldaker passed away on Oct. 4th and was buried in Atlanta, Ill. Our sympathy is extended to those bereaved. . . . Joe McMahon is enjoying the fall weather in a new Cadillac. . . . Dr. Balint Orban was the essayist at the Oct. 14th meeting and, as usual, presented a very interesting lecture as only he can do on this particular subject, namely Periodontia. . . . Ernie Borgerding recently purchased a miniature farm in Palos Park and in his spare time has been planting fruit trees to match up with a special species of Bourbon bush and the new Martini climbing vine. . . . We are glad to report that Stanley Tikusis' boy is recovering from a siege of polio. . . . Howard Alexander is giving up his Chicago practice and moving to Florida. . . . Milt Cruse recently did some fishing in Wisconsin and reports a good catch. . . .

Ralph Rudder is the proud owner of a new 48-foot cabin cruiser. . . . The entertainment committee for our Old Timers' meeting on Dec. 9th has been in a series of huddles and, from inside information that I have received, we are going to have a headliner this year plus roving minstrels, etc., which should provide a real evening of fun and frolic. The feature attraction will be a lecture by Dr. Harlan Tarbell, noted lecturer, a world-famous magician and mentalist who will present "Dreams for Sale." This is different from any other lecture because it combines humor, entertainment, practical psychology and inspiration. Robert L. Ripley's comment on Dr. Tarbell is that his eyeless vision sight with the eyes sealed and blindfolded is one of the wonders of the world and that he has never seen its equal. . . . Don't miss the Old Timers' meeting this year. There will be cocktails, good food and a full evening of topnotch entertainment. . . . Reserve the evening of Dec. 9th.—O. E. Johnson, Assistant Branch Correspondent.

amazing resin cement

will not wash out . . .

DuraCement

HARD, STRONG, LASTING

DuraCement is hard, strong, dense. Superior to zinc cements, it forms a permanent, mechanical bond that will not wash out, crumble or disintegrate.

ALL-PURPOSE VERSATILITY

DuraCement forms a lasting seal between tooth enamel or dentine, and gold, porcelain or acrylic on jacket crowns, bridges, inlays, facings. It is non-irritating to nerve, pulp or tissue; unaffected by heat, cold, or mouth fluids.

SATISFACTION GUARANTEED

Use DuraCement on several cases. Color blending, consistency of mix, and speed of application are easily controlled. The bond sets permanently in 6 minutes . . . If you are not entirely satisfied, remainder of package may be returned for full credit.

The DuraCement introductory kit includes Liquid, Dropper, and 4 shades of Powder. \$11.50 value for \$10.00.

SLOPPY COPY FROM OPPY

(Continued from page 11)

First time in years I have wanted to really work in my office, for the Fortnightly, for the Society, for Lions. . . . My boy says "Dad, it will be swell to have an officer in the family." I hope I can keep sending him money each month, then we will see how swell it is. He's in college now. . . . But seriously, this will be a shock to many families. The wisdom of it, your guess. . . . I have this little prayer which I am reading and I think sums it up very good. . . .

GOD GRANT ME THE SERENITY
TO ACCEPT THINGS
I CANNOT CHANGE, COURAGE TO
CHANGE THINGS
I CAN, AND WISDOM TO KNOW
THE DIFFERENCE.

That is on one side of a card put out by that wonderful organization, Alcoholics Anonymous. . . . On the other side are 12 steps which help to sobriety. I think these steps can help anyone who wishes a yardstick or a golden rule to go by. Here they are:

1. We admitted we were powerless over alcohol—that our lives had become unmanageable.
2. Came to believe that a Power greater than ourselves could restore us to sanity.
3. Made a decision to turn our will and our lives over to the care of God as we understood Him.
4. Made a searching and fearless moral inventory of ourselves.
5. Admitted to God, to ourselves and to another human being the exact nature of our wrongs.

6. Were entirely ready to have God remove all these defects of character.

7. Humbly asked Him to remove our shortcomings.

8. Made a list of all persons we had harmed, and became willing to make amends to them all.

9. Made direct amends to such people wherever possible, except when to do so would injure them or others.

10. Continued to take personal inventory and when we were wrong, promptly admitted it.

11. Sought through prayer and meditation to improve our conscious contact with God as we understood him, praying only for knowledge of His will for us and the power to carry that out.

12. Having had a spiritual awakening as the result of these steps, we tried to carry this message to alcoholics and practice these principles in all our affairs.

I would for this occasion like to change the first step to: "I admitted I was powerless over the mess in Washington and my life has become unmanageable." I would like to be bold enough to change the last step to "Having had a spiritual awakening as the result of these steps, we are carrying the message 'Please Vote November 4th' to others and practice these principles in all our affairs."

I hope A.A. will forgive me for butchering those *Wonderful Steps to a Better Way of Life*, but I felt they may help someone who is worried about the Army. And, please believe me, I like our mailmen and have nothing but highest regard for them and the wonderful job they are doing. Also, I still would like to be in Colonel Wm. Tolar's company if I have to go.—*Olaf S. Opdahl.*

NEWS AND ANNOUNCEMENTS

(Continued from page 14)

Kleiman, Secretary of the Chicago Dental Society.

A luncheon will be served at 12:00 noon. For reservations to luncheon, please call Dr. Paul C. Wittenberg (Chairman Clinic Day), KEdzic 3-8060 or DIversy 8-4458.

Following is a partial list of some of the clinicians:

Dr. Irwin G. Neer—Latest concept in modern bridgework.

Dr. Harry Spiro—New impress technique.

Dr. Edward J. Budill—Modern concept of anesthesia.

Dr. Harold Epstein—Endodontics.

Dr. Maurice R. Falstein—Periodontia.

Dr. Phil Green—Indirect hydrocolloid impression technique.

Dr. Fred Weitz and Dr. A. J. Shipiro—Implant dentures with actual films of practical cases.

Dr. Anthony J. Malone—Children's dentistry.

Dr. P. L. Mathisen—Mucostatic impressions.

Dr. Marion B. Hopkins—Acrylic jackets and inlays.

Dr. Bernard D. Katz—Temporomandibular articulation.

Dr. Asher Sherow—Exhibition of new equipment.

Dr. Seymour Yale—Practical oral diagnosis.

Dr. Harold H. Sitron—Direct impressions with adaptable bands.

Dr. Arno Leshin—Oral pathology.

Dr. Hans G. Sussman—Acrylic jacket crowns and bridges using gold refinement.

Everything new and advanced in dentistry will be presented. There will also be commercial exhibits.

SMILES

A smile is a light in the window of the face which shows that the heart is at home.

ABSTRACTS

(Continued from page 9)

In placing the material, the polymer should be warmed and carried to place by a brush of which only the tip is wet with monomer.

The polymer must be warmed and the building up of the restoration must take a minimum of 5 minutes for a small cavity to 8 minutes for a large cavity. A glossy sheen should be maintained and the restoration covered with tinfoil and allowed to set for 10 minutes. It is finished with burs under light pressure and high speed.

The cavity must be dry and completely free of traces of eugenol.

Acrylics abrade only 7% more than amalgam but are not indicated for posterior restorations due to the high thermal volume change of the material.

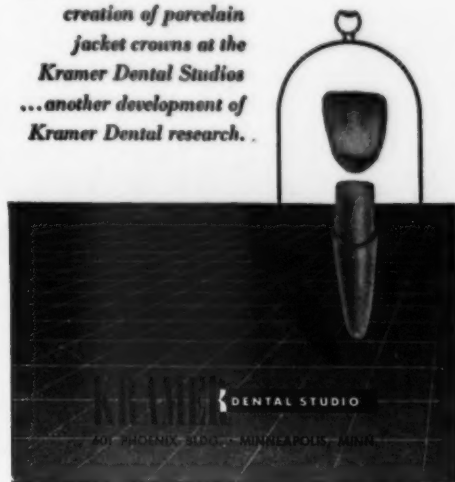

In tests for marginal adaptation using an ingenious calorimetric evaluation of volumetric loss, acrylic restorations of a non-pressure technic were superior to silicate and on a par with amalgam.—**"ACRYLIC RESTORATIONS BY THE OPERATIVE NON-PRESSURE PROCEDURE"** by F. H. Nealon, B.S., D.D.S. *Journal of Prosthetic Dentistry*, July, 1952.

TOOTH PULP RESPONSE TO OPERATIVE PROCEDURES

Eleven cavities in the teeth of dogs were prepared with a steel bur and ten with the airbrasive technique. Some of the cavities were deep and others shallow. Six of the cavities were left unfilled; the others were filled with either $\text{Ca}(\text{OH})_2$ and cement, cement alone, amalgam, or self-curing resins. One week after the treatment, the teeth were removed and sections prepared. The pulps showed evidence of injury only if the cavities were not filled, regardless of the depth or the means of preparation.—By D. A. Boyd and Grant Van Huysen, *Journ. of Dental Research*, Aug., 1952. J.N.L.
